Appropriations Recommendation	\$2.00

Rationale of the Committee

The Appropriations Committee recommends funding Cornell Minds Matter at \$2.00 for the 2016-2018 By-Line Funding Cycle. The Committee appreciates the immense amount of work being done by those within Cornell Minds Matter to support the mental health of those within the Cornell community. The Committee suggests that Cornell Minds Matter attempt to eliminate unnecessary costs including massage therapists and focus on which portions of the event are necessary to adequately support the intention of that event. Additionally, the Committee recommends that Cornell Minds Matter reevaluate the importance of their community events to the undergraduate students they are meant to serve through the Student Activity Fee. Finally, the Committee suggests investigating the potential success of larger events as they may represent a way to engage a broader number of students.

Vote Totals

The Committee votes down, from the highest number proposed to the lowest, to give the group the advantage. The vote totals from the Committee were as follows:
